PLEASURE NOOK

RESIDENTIAL LANDSCAPE DESIGN

BY: FREDERICK A. DELAVIN
ARCH 5-THNOP

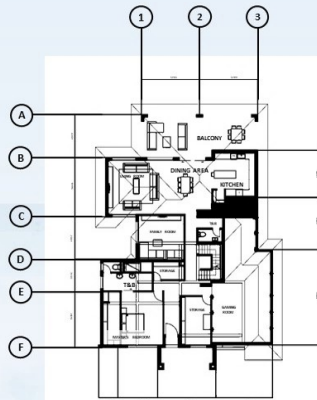

This project was inspired from “fronds” as this signifies provision of relaxation with combination of both pleasure and resort-vibe residential landscape. The idea of fronds design is to give contemporary landscape in a residential place. This residential landscape design will commemorates building thriving spaces that are sewn together, not thrown together. It is an opportunity to give a residential house, a place to feel safe and at the same time, there is always an excitement feeling when going home.
