# Pasig-Laguna Linkage: A MIXED-USE TRANSPORT TERMINAL RIVERFRONT DEVELOPMENT

#### SITE 01:

Taguig: main site that would serve as the link between Metro Manila and Greater Manila Area. there are many apportunities for the locals and visitors to explore and even purchase fresh goods and products from both the other 2 sites: Los Baños and Sta. Cruz.

#### **SITE 02:**

Los Banos : most commuters to and from Los Baños are tourists or visitors, as the city is famous for its hot spring resorts and other picturesque surroundings. Furthermore, other commuters would consist of students and workers that would utilize the services provided an site.

#### **SITE 03:**

Santa Cruz: The primary purpose of most of the commuters from Sta. Cruz is to transport fresh goods and products from their city since they are mostly surrounded by ricelands and farms.
