

CASA DE VERANO

SUMMER HOME ON THE ISLAND

SEE THE BEAUTIFUL VIEW

The design of the house highlights the users' ability to view the surrounding landscape. So, the house was designed to offer the users a large balcony and entrance. The site was also developed for users to freely move and roam around the land while seeing the environment without obstructions.

GET TO HIGHER GROUND

The property boasts itself with its accessibility to higher terrain. The house is situated on top of a sloping island hill, a high place with its tower, and an elevated floor from its balcony.

CONNECT WITH NATURE

The site and land were developed with palm trees and grass for the users to be one with nature. Application of concrete pavements and ground was kept to a minimal.

CASA DE VERANO

SUMMER HOME ON THE ISLAND

COMFORTABLE INTERIOR

Casa de Verano features an elegant and comfortable interior by the beach. Its wooden floors adds a certain natural feel and connection, and large window fixtures to let natural light in.

BREATHING MODERNITY

The house is designed in modern times, thus modern furniture extends the house's comfort to the guests. Fully furnished rooms, state-of-the-art fixtures, spacious for guests. These characteristics will make the stay worth it.

NATURAL + MODERN

The complementing the two styles breathes through the house as it sits in its environment and time. The house is not detached to the natural feel of the outdoors, while it is not disconnected to the modern times of the present.
